# DIRECTOR'S NOTE

First and foremost we are so thankful for your support and attendance. We could not have created tonight's presentation without you. The show you are about to experience, NOIR, is our journey back into the revue style shows that have been part of our programming since the beginning of our existence.

We decided to focus on pushing the envelope in terms of the audio / visual experiences along dynamic, yet seductive choreographic direction opposed to a narrative approach as seen most recently in House of Hearts. Experimenting with the dynamic elements of psychedelic and original AI art production and fusing them with my love for classic film noir aesthetics along with some of my favorite elements of traditional circus and cabaret music themes, this production was an adventure in entangling traditional and modern canvases that we inevitably straddle in our creative ecosystem. It's a true culmination of our audio, visual, musical, choreographical, technological, and stage craft experiences over the years. All that said, another goal of this production was to leave room for you, the audience, to create your own narrative - your own story - hopefully instigating transformation on some level. We hope you will let us know if this approach worked or not.

I am still amazed, thankful and proud that our team was not only able to execute but exceed all the various technical, artistic and conceptual direction and challenges laid before them...it would be easy to say it was a miracle but honestly it's many years of our team honing their individual crafts resulting in extreme expertise that allows our tiny little company to excel in ways only larger, big budget production houses are able to.

It's been such a wonderful feeling to enter into our 19th anniversary with a show that celebrates both our history and future. I truly hope that those that have been following us since the beginning and future audiences alike will get a glimpse of where we've been and what's to come and continue to celebrate with us now and years to come.

Now, with no further adieu, we present to you Noir.

- Founder and Artistic Director, Chris Pink
